CAREER OBJECTIVE

Aiming to leverage the MERN stack (MongoDB, Express.js, React, Node.js) and Java Full Stack development (Java, Spring Boot) to build scalable web applications that enable seamless data flow and robust user interaction. Additionally, aspiring to develop expertise in artificial intelligence and machine learning to design intelligent systems, drive innovation in AI engineering, and contribute to cutting-edge technological advancements.

TECHNICAL SKILLS

Programming Languages: Java (Advanced), C, C++, Python

Full Stack Technologies: HTML, CSS, JavaScript, Bootstrap, React, Spring Boot, Flask, Express.js, Node.js

Databases: SQL (MySQL, PostgreSQL), NoSQL (MongoDB)

Tools: Postman, Docker

Version Control: Git, GitHub

Certifications: WEBATHON Participation, Java Programming (Udemy), HTML/CSS (TechA), Python Achievement

Training: ReactJS Value Added Program

INTERNSHIPS

Full Stack Development Intern

Oct 2024 - Present

Unified Mentor

Remote

Contributed to building web applications by working on both the frontend and backend using React and Spring Boot or Node.js.

Collaborated with senior developers, gaining practical experience in coding, debugging, and deploying real-world projects.

Enhanced skills in full-stack development through hands-on learning in client-side and server-side development.

Java Full Stack Developer Intern

Aug 2024 - Oct 2024

Vaishnav Technologies

Remote

Developed comprehensive web applications, handling both frontend and backend tasks using React and Spring Boot.

Managed the full development lifecycle, including design, deployment, and database integration with MySQL or MongoDB.

Collaborated with cross-functional teams to deliver scalable and high-quality solutions tailored to client requirements.

React Frontend Developer Intern

Oct 2024 - Present

Gowri Software Solutions

Offline

Developing and maintaining responsive user interfaces using React and related technologies.

Collaborating with team members to implement UI/UX designs and ensure application functionality.

Participating in code reviews, debugging, and performance optimization of the frontend components.

PROJECTS

Employee Management Application

Full Stack Project

Developed an Employee Manager Application using Spring Boot, React, and MySQL.

Implemented RESTful APIs and ORM mappings for efficient data handling.

Designed a responsive frontend for seamless user experience.

E-commerce Platform (MERN Stack)

Full Stack Project

Created a full-stack e-commerce platform enabling product browsing and cart management.

Implemented RESTful APIs for user authentication and order processing.

Optimized MongoDB for efficient data retrieval and scalability.

EDUCATION

Global Academy Of Technology

B.E. in Information Science and Engineering (CGPA: 8.91)

2021 – 2025
